On the recommendation of the undersigned, the Lieutenant Governor, by and with the advice and concurrence of the Executive Council, orders that

WHEREAS in and by chapter 407 of the Statutes of Ontario, R.S.O. 1980, entitled "The Public Commercial Vehicles Act", it is enacted that the Lieutenant Governor in Council may by order from time to time issue policy statements setting out matters to be considered by the Ontario Highway Transport Board when determining questions of public necessity and convenience, and the Ontario Highway Transport Board shall take such matters into consideration together with such other matters as the Ontario Highway Transport Board considers appropriate where the hearing or review is commenced after the policy statement is gazetted;

NOW THEREFORE the Ontario Highway Transport Board when determining questions of

public necessity and convenience shall take into consideration the following:

1. Where a person is applying for an operating licence or an extension to an existing operating licence, the Board shall not disqualify the applicant on the basis of alleged violations of, or past convictions under, the *Public Commercial Vehicles Act*, if the applicant demonstrates a genuine and conscientious effort to comply with the requirements of the *Public Commercial Vehicles Act*.
2. The Board shall only take into account the past record of convictions of an applicant where evidence is submitted that the applicant has flouted the law in such a manner as would in the Board's view indicate that illegal behaviour will continue in spite of the grant of an operating licence or an extension to an existing operating licence.

Recommended JAMES SNOW,
Minister of Transportation
and Communications.

Concurred GEORGE R. McCAGUE,
Chairman.

Approved and Ordered, June 15, 1984.

Treasurers' Sales of Lands for Taxes

Each year, municipal and county treasurers compile a list of properties against which taxes are outstanding for at least two successive years, which is a period sufficient to permit sale of the owner's assets to reimburse the municipality. These lists are submitted by the municipal representative to the Ministry of Government Services for publication in THE ONTARIO GAZETTE.

The Gazette is published every Saturday. Tax sale lands are included only in the issue of the first Saturday of each month. Each property is described so that it may be properly identified. Also shown are the amount of tax arrears and costs, and the date, time and place where the sale will be held, which is usually in a public building in the locality. Sales are held three months or later following the date of publication in the Gazette and are subject to a reserve bid equal to the amount of tax arrears and costs.

The previous owner may by law redeem the property any time within one year and one day after the date of tax sale by paying to the municipality all arrears plus costs levied. Where redemption occurs, the municipality reimburses the purchaser of tax sale lands for the amount paid at the sale plus an additional amount to be determined in each case.

If the land is not redeemed in the manner described above, the purchaser at sale, receives from the municipality a tax deed or certificate which should be registered in the appropriate Land Titles or Registry Office. A purchaser should ascertain from either of these offices, information relating to any of the charges or liens against the land and consider the advisability of employing the services of a solicitor to determine the extent, if any, of his liability.

The foregoing applies to tax sale lands which were privately owned. In the event the land is the property of the Crown as represented by the Province of Ontario, only the improvements on the property, such as buildings, may be sold. In this case, an intending purchaser should for his own protection ascertain from the local office of the Ministry of Natural Resources whether or not the land or any part can be purchased or leased from the Ministry. If it cannot, then the purchaser of the improvements would be required to remove them from the land.

In some cases, the owner, prior to sale, may pay the tax arrears and cost. Where this occurs, the land is removed from the tax sale lists.

NOTICE OF POSSIBLE DESIGNATION OF NICKEL

BE ADVISED that nickel, in some or all of its forms, is currently under consideration for possible designation under the *Occupational Health and Safety Act* section 41, as a substance to which the exposure of a worker is prohibited, regulated, restricted, limited or controlled by regulation. This notice serves to provide the background and basis for such consideration and to call for briefs, and submissions relating to this proposed course of action.

Background

Nickel is used primarily as a component of some 3,000 alloys to impart strength, toughness and corrosion resistance. It is used also in electroplating and as a catalyst in a variety of chemical processes. Nickel is used in a number of processes including alloying of steel, metal casting, production of non-ferrous alloys, plating and powder metallurgy.

The occupational Health and Safety Division commissioned a report "Worker Exposure to Nickel and Its Compounds" October, 1982, by Acres Consulting Services Limited. This has been placed in the district offices of the Ministry of Labour and is also available for review in the Ministry Library, 400 University Avenue, 10th Floor, Toronto, Ontario.

Control Strategy

Based upon review of the Acres Report and other available information, the Ministry of Labour is considering designation of nickel in some or all of its forms.

Before a decision is made to designate nickel in some or all of its forms, the Ministry invites all interested parties to comment on the appropriateness of such action, on any issues which may result from such action and to provide such relevant unpublished information as may be available.

The Ministry is particularly interested in new or unpublished information, over and above that contained in the Acres Report, on the following topics:

- information which may further define the health risks associated with exposure to nickel compounds;
- appropriateness of and basis for an exemption for an industry sector from any or all provisions of a designated substance regulation for nickel in any or all of its forms;
- levels of exposure of workers in the nickel-consuming and nickel-producing industries, and numbers of workers exposed;
- procedures for analyzing nickel compounds to allow precise identification of the form of nickel present in a sample;

- comments on the appropriate exposure limits (time-weighted average or maximum) for nickel and any of its compounds and the basis for such limits; and
- comments on the appropriate provisions for medical surveillance of workers exposed to nickel or nickel compounds, the frequency of medical examinations, and information or current medical programs in place.

Briefs and submissions should be submitted within 60 days (September 12, 1984) of the publication of this notice in THE ONTARIO GAZETTE and should be addressed to:

The Program Development Unit,
Occupational Health & Safety Division,
Ministry of Labour,
400 University Avenue, 9th Floor,
Toronto, Ontario,
M7A 1T7.

Shortly after the end of the comment period copies of all briefs submitted will be available for review in the Ministry of Labour Library during business hours.

Should the Ministry decide to proceed with the designation of nickel in some or all of its forms, ample opportunity will be given to submit briefs and make representations on the substance and content of regulations respecting the designation of the substance before such regulations are filed with the Registrar of Regulations.

For further information please contact Mr. John Wilson, Toronto (416) 965-8710.

Dated at Toronto, this 5th day of July, 1984.

NOTICE OF POSSIBLE DESIGNATION OF COAL TAR PRODUCTS

TAKE NOTICE that coal tar products (including coal tar, coal tar pitch, coal tar pitch volatiles and creosote) may be designated under the *Occupational Health and Safety Act*, Section 41, as substances to which the exposure of a worker is prohibited, regulated, restricted, limited or controlled by regulation. This notice serves to provide the basis for this consideration, and to call for briefs and submissions in relation to this proposed course of action.

Background

Coal tar is a by-product of the manufacture of metallurgical coke. It is produced, together with other by-products, when coal is heated to high temperatures in a coke oven battery. Approximately 200 kilotonnes of crude coal tar is produced in Ontario each year. It is refined to produce coal tar pitch, creosote and lighter oils. Coal tar pitch in turn is used in the manufacture of roofing materials, industrial carbon products, clay pigeons, and coatings, sealants and road surfacing materials. Coal tar has also been used as a therapeutic agent

for treatment of skin disorders. Creosote is used as a wood preservative.

The Occupational Health and Safety Division commissioned a consultant study of the exposure of workers to coal tar and coal tar pitch. The resulting report, "Occupational Health Aspects of Exposure to Coal Tar Pitch Volatiles (CTPV) in Ontario", by Michael Holliday and Associates, has been placed in the district offices of the Ministry of Labour. It is also available for viewing in the Ministry Library, 400 University Avenue, 10th Floor, Toronto, Ontario.

Control Strategy

As a result of a review of the Holliday Report, the NIOSH Criteria Document (Criteria for a Recommended Standard....Occupational Exposure to Coal Tar Products, U.S. National Institute for Occupational Safety and Health, NTIS Document No. PB276-917 (1977)), and other available information, the Ministry is considering designation of coal tar products.

Before making a final decision on the need to designate coal tar products, the Ministry seeks comment on the appropriateness of this course of action, and on any issues arising from this action which may be of concern to interested parties.

In addition, the Ministry invites submission of new or unpublished information beyond that contained in the Holliday Report, on the following topics:

- the health effects of coal tar products;
- methods for monitoring the exposure of workers to coal tar products;
- the levels of coal tar products to which workers in Ontario are exposed;
- the uses of creosote and the number of workers exposed to creosote in Ontario; and
- the extent of current therapeutic use of coal tar.

Briefs and submissions should be submitted within 60 days (September 12, 1984) of the publication of this Notice in THE ONTARIO GAZETTE, and should be addressed to:

The Program Development Unit,
Occupational Health and Safety Division,
Ministry of Labour,
400 University Avenue, 9th Floor,
Toronto, Ontario, M7A 1T7.

Following the comment period, copies of all briefs submitted will be made available for viewing in the Ministry of Labour Library during business hours.

In the event that it is deemed necessary to develop regulations controlling the exposure of workers to coal tar products, ample opportunity will be given for comment on the content of such regulations before they are filed with the Registrar of Regulations.

For further information please contact Dr. Donna Brown, Toronto (416) 965-8710.

Dated at Toronto, this 5th day of July, 1984.

Note

The use of tetracyclines during tooth development (last half of pregnancy, infancy and childhood to the age of 10 years) may cause permanent tooth discoloration (yellow-grey-brown). This reaction is more common during long-term use of the tetracyclines, but has been observed following short-term courses. Enamel hypoplasia has also been reported. Tetracyclines should therefore not be used in this age group unless other antibiotics are not likely to be effective or are contraindicated.

Environmental Assessment Act

NOTICE OF ACCEPTANCE OF THE ENVIRONMENTAL ASSESSMENT

NOTICE OF APPROVAL TO PROCEED WITH THE UNDERTAKING

RE: An Environmental Assessment for a Sewage Collection and Treatment Facilities for the Police Village of Williamsburg.

Proponent: Township of Williamsburg

E.A. File No. 1-82-0012-000

TAKE NOTICE that the date for receipt by me of submissions or requirements for a hearing on the above environmental assessment and/or its review by the Ontario Government, pursuant to the *Notice of Completion of Environmental Assessment Review*, dated February 16, 1983, has expired as of March 31, 1983. I received one submission, which included a request for a hearing, by that date. However, the person who made the request has indicated that the matter which was at issue has since been resolved by an amendment to the environmental assessment dated January 25, 1984 made by the proponent and on May 28, 1984 the person who made the submission withdrew the request for a hearing. The proponent gave notice of the amendment to persons who might be affected by it and invited further submissions to be sent to me. None were received. I do not consider it advisable to require the Environmental Assessment Board to hold a hearing at this time.

ACCEPTANCE OF THE ENVIRONMENTAL ASSESSMENT

I have considered the purpose of the Act, the above environmental assessment and the review and the submission received, and am of the opinion that the environmental assessment is satisfactory to enable a decision to be made as to whether approval to proceed with the undertaking should or should not be given, or should be given subject to terms and conditions. Accordingly, I accept the environmental assessment as amended by the proponent.

HEARING

Under section 13 of the Act, before I, or the Environmental Assessment Board, can consider whether approval to proceed with the undertaking should or should not be given, or should be given subject to terms and conditions, the proponent or anyone having previously made a submission under subsection 7 (2) of the Act on the *Notice of Completion of Environmental Assessment Review* for this undertaking, may require a hearing by the Environmental Assessment Board with respect to whether approval to proceed with the undertaking should or should not be given, or should be given subject to terms and conditions.

The proponent and the person who made a submission under subsection 7 (2) waived their right to a hearing on the approval of the undertaking.

APPROVAL TO PROCEED WITH THE UNDERTAKING

I have considered the purpose of the Act, the environmental assessment of the undertaking as accepted by me and the submission received.

Accordingly, I hereby give approval to proceed with the undertaking subject to the conditions set out below.

REASONS

The reasons for giving approval are:

- A. The undertaking will alleviate the ground and surface water pollution problems which have been caused as a result of the lack of communal sewage services in the Police Village of Williamsburg.
- B. The undertaking will not have any significant negative effects on the environment.

CONDITIONS

- 1. Except as provided by the subsequent condition, the Township of Williamsburg shall comply with all of the provisions of the Environmental Assessment as amended which are herein incorporated by reference.
- 2. If the quality of the perimeter ditch discharge proposed for the outside of the lagoon berm causes water quality impairment in the McMartin drain (as determined by abatement staff, Ministry of the Environment, Southeast Region), any such discharge shall be collected and pumped back into the lagoon.

Dated at Toronto, this 28th day of June, 1984.

ANDY BRANDT,
Minister of the Environment.

Approved by O.C. No. 1765/84.

be exempted from the application of the Act pursuant to section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The Ministry of the Solicitor General will be interfered with because it requires the undertaking to overcome existing inadequate facilities which severely hamper effective and efficient program delivery.
- B. The public will be interfered with and possibly damaged in that the level of service available and the access to that service is restricted by the existing inadequate accommodations.
- C. The Crown will be interfered with in that steps to stimulate the Provincial economy by providing funding for an accommodation project will be delayed unnecessarily if the full process of the Environmental Assessment legislation were to be applied.

Having weighed such injury, damage or interference against the betterment of the people of the whole

or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reason:

A. The Minister of Government Services has assured me that,

- (i) the undertaking will not have any significant adverse effect on the environment,
- (ii) the undertaking conforms with the local zoning by-laws, and
- (iii) suitable conservation strategies regarding archaeological resources will be undertaken where circumstances warrant.

This exemption is subject to the following terms and conditions:

1. Where carrying out the undertaking requires some activity for which an Environmental Assessment has been done and an approval to proceed has been issued, that activity is not exempt under this Order but shall be carried out in accordance with the Environmental Assessment and approval to proceed. Where carrying out the undertaking requires some activity for which another Exemption Order has been granted, that activity shall be carried out in accordance with any conditions in the other Exemption Order as well as the conditions herein.
2. The sewage treatment plant which the Ministry of Government Services uses to provide services for various Government buildings including the proposed undertaking shall be operated so that the effluent from the sewage treatment plant will not have an adverse effect on water quality nor have a concentration of phosphorus in excess of 1.0 mg/litre based on a yearly average as determined by a method approved by the Regional Director of the Northeastern Region of the Ministry of the Environment.

3. This exemption shall not apply unless a substantial amount of construction has been undertaken by December 31, 1985. O. Reg. 439/84.

Having received a request from the Minister of Government Services that an undertaking, namely:

The activity of constructing additional courtrooms and related facilities at the Metropolitan Toronto Courthouse at 361 University Avenue and additional Judges' Chambers at Osgoode Hall, Toronto,

be exempt from the application of the Act pursuant to section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- B. The Ministry of the Attorney General will be interfered with in that suitable accommodation is required urgently in order to carry out its administration of justice programs.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management of the environment which would result from the undertaking being subject to the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertak-

ing is exempt from the application of the Act for the following reasons:

- A. The undertaking, which will have relatively insignificant adverse impacts, is urgently required to alleviate accommodation problems that affect the administration of justice.

the activity of construction of a new Registry Office on a site that is referred to as lots 6, 7, 8 and 9 Registered Plan 8, Town of Bracebridge, District Municipality of Muskoka, which is to be funded through the Capital Acceleration Program under BILD, by the Ministry of Government Services, and the demolition of an existing outdated facility for the purposes of consolidating the necessary parking requirements,

be exempt from the application of the Act pursuant to section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The Ministry of Consumer and Commercial Relations will be interfered with because they require the undertaking to overcome existing inadequate facilities which severely hamper effective and efficient program delivery.
- B. The public will be interfered with and possibly damaged in that the level of service available and the access to that service is restricted by the existing inadequate accommodations.
- C. The Crown will be interfered with in that steps to stimulate the provincial economy by providing funding for accommodation projects at various locations will be delayed unnecessarily if the full process of the Environmental Assessment legislation were to be applied.

Having weighed such injury, damage or interference, against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management of the environment which would result from the undertaking being subject to the application of the Act;

- A. The Minister of Government Services has assured me that,

ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 442/84.

Exemption—Ministry of Natural Resources—MNR-11/8.

Made—June 28th, 1984.

Approved—June 28th, 1984.

Filed—July 9th, 1984.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—MINISTRY OF NATURAL RESOURCES—MNR-11/8

Having received a request from the Minister of Natural Resources that an undertaking, namely:

forest management by the Ministry of Natural Resources on Crown land presently included within forest management units and associated tree nurseries

be exempt from the application of the Act for an additional period pursuant to section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons indicated will occur:

- A. The Crown and the public will be interfered with by the delay in planning and implementing of forest management plans which are scheduled to proceed within the period of the exemption.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The Ministry of Natural Resources will undertake measures to implement public participation in respect to the approval of Forest Management Agreements, Forest Management Plans and Operating Plans, including road plans prescribed by these, and in respect to aerial spraying of pesticides for forest management purposes.
- B. The undertaking is an ongoing activity of the Ministry of Natural Resources and is an integral part of the economy of the Province. Since the exemption for this undertaking under Exemption Order MNR-11/7 which was filed as O. Reg. 2/84, will expire on June 30, 1984, the application of the Act before December 31, 1984 in the absence of an approval under the Act would result in the halting of forest management on Crown land. Therefore, the interference which would be caused would be undue.
- C. The Ministry of Natural Resources has completed a draft of the Environmental Assessment for forest management and is continuing a process of public consultation to allow interested parties to provide input to that Environmental Assessment before a formal submission for approval under the Act is made.

This exemption is subject to the following terms and conditions:

1. The Ministry of Natural Resources shall consult the public and Government agencies at an early stage of the preparation of Forest Management Plans and Operating Plans, as well as a minimum of thirty days prior to the proposed plan being approved.
2. The Ministry of Natural Resources shall follow the procedure it has developed to solicit, evaluate and respond to input and comments from the public and Government agencies at an early stage of the preparation of Forest Management Plans and Operating Plans for Crown and company management units. This procedure shall be included as part of the Class Environmental Assessment to be submitted for the activity of forest management on Crown land in Ontario for approval

under the Act, and will also be incorporated into the forest management planning process.

3. For the period that this exemption order is in force, the Ministry of Natural Resources shall plan primary public forest access roads on Crown Management Units in accordance with the approved Class Environmental Assessment for "Access Roads to MNR Facilities". This procedure shall give emphasis to the identification of alternative road locations and evaluation of the environmental effects of alternatives considered and shall provide a rationale for the alternative road location which is selected.
4. At least 30 days prior to the anticipated aerial spraying of herbicides or insecticides for forest management purposes, the Ministry of Natural Resources shall notify the public, the appropriate Regional Office of the Ministry of the Environment and the Environmental Assessment Branch of the project. During this period a project description shall be made available for public inspection at the appropriate district office of the Ministry of Natural Resources. Where there is a newspaper or radio or television station serving the area concerned, the public notice shall be in the form of a paid public notice in one or more of such media. An illustrative format which may be used for a printed notice is attached as follows:

Illustrative Format for Public Notice
for Aerial Spraying of
Herbicides and Insecticides

As part of the Ministry of Natural Resources' ongoing program to regenerate and protect our forests, selected stands (specified area) will be sprayed with an (insecticide or herbicide) to control (competing vegetation or name of insect) starting on or about (date).

Further details about this program, including specific locations, are available from the (District, Regional or Main) Office of the Ministry of Natural Resources.

5. The Ministry of Natural Resources shall prepare a letter for each plan prepared pursuant to this exemption and send it to the Director of the Environmental Assessment Branch for inclusion in the Public Record. The letter shall describe:
 - (a) the name of the Forest Management Unit or Forest Management Agreement Area (FMA) for which the plan is being prepared;

- (b) a map of the Forest Management Unit or FMA covered by the Forest Management Plan; or
a map of the area within the Forest Management Unit or FMA covered by the Operating Plan;
- (c) the duration of the plan;
- (d) the date(s) of public notification;
- (e) the nature of the comments received from the public and other government ministries/agencies; and
- (f) the proponent's responses to the comments received.

This shall be submitted thirty days prior to approval of the plan.

- 6. The Ministry of Natural Resources shall provide the Director of the Environmental Assessment Branch with a list of those plans scheduled for approval during the period of this order, by August 31, 1984. This list shall also identify plans which are under preparation during the period that this exemption is in force but which are scheduled for approval sometime after the expiry date of this order.
- 7. Where the carrying out of the undertaking requires that some activity for which an Environmental Assessment has been done and an approval to proceed received or an exemption has been granted, be conducted, that activity is not exempt under this order but shall be carried out in accordance with the Environmental Assessment and approval to proceed, or the conditions of exemption whichever is applicable.
- 8. This order expires on the earlier of December 31, 1984 and the date of granting of an approval under the Act for the forest management undertaking. O. Reg. 442/84.

ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 443/84.
Exemption—County of Oxford—OXFO-CT-2.
Made—June 28th, 1984.
Approved—June 28th, 1984.
Filed—July 9th, 1984.

ORDER MADE UNDER THE
ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—COUNTY OF
OXFORD—OXFO-CT-2

Having received a request from the County of Oxford that an undertaking, namely:

the expansion, operation, maintenance and closure of the existing Holbrook Sanitary Landfill Site, within a total site area of 40.5 hectares located in Lot 20 and Lot 21, Concession 3, Township of Norwich, County of Oxford for the disposal of domestic, commercial and nonhazardous solid industrial wastes,

be exempt from the application of the Act pursuant to section 29; and

Having been advised by the County of Oxford that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The County would be subject to delay and expense if it were required to submit the undertaking to an environmental assessment. The County estimates that the activity at the Holbrook site will continue for a further two-year period and the delay and expense in preparing an environmental assessment for this undertaking is not warranted.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. A Provisional Certificate of Approval No. A 070702 under the *Environmental Protection Act* dated March 31, 1983 was issued to the County of Oxford for the use and operation of the Holbrook Sanitary Landfill Site because the Director of the Environmental Approvals and Project Engineering Branch of the Ministry of the Environment was of the opinion that an emergency situation existed by reason of danger to the health and safety of persons, immediate risk of impairment to the quality of the natural environment, an immediate risk of injury or damage to property brought about by the failure of Oxford County to adequately provide or plan for the disposal of wastes from within the County and the emergency situation would be alleviated by the use and operation of the waste disposal site named in the Provisional Certificate of Approval.

The Director imposed conditions on the Provisional Certificate of Approval requiring the County to formally propose long-term solutions to waste disposal problems. The Director is satisfied that the County has adequately complied with or made a satisfactory attempt to comply with the conditions.

- B. The Provisional Certificate of Approval No. A 070702 expires on June 30, 1984 and the interim expansion of the Holbrook site is subject to the *Environmental Protection Act*. The Director has indicated his intention to require a hearing pursuant to the Act. This hearing will give local residents the opportunity to provide input to the Environmental Assessment Board and in turn to the Director on the technical aspects of this proposal.
- C. The County has submitted an application for approval for a new waste disposal site referred to as the Oxford County Landfill Site at Salford. A hearing under the *Consolidated Hearings Act, 1981* has been completed on this proposal.
- D. The conditions of this Order allow the Holbrook Sanitary Landfill Site to be operated for a limited period of time.
- E. No useful purpose would be served by conducting an environmental assessment process or further hearings under the *Environmental Assessment Act* on the suitability of the Holbrook Sanitary Landfill Site for landfill purposes.
- F. The continued use of the Holbrook facility is clearly an interim measure for which there are no other reasonable waste management alternatives which can be implemented within the necessary time frame.

This exemption is subject to the following terms and conditions:

1. Where an activity which otherwise would be exempt under this Order is being carried out in connection with or is part of, an undertaking for which an environmental assessment has been done and approval to proceed received, the activity shall not be exempt under this Order but shall be carried out in accordance with the approval to proceed.
2. No waste shall be deposited at the site pursuant to this Order after September 1, 1986. O. Reg. 443/84.

ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 444/84.

Exemption—Ministry of Natural

Resources—MNR-26/4.

Made—June 28th, 1984.

Approved—June 28th, 1984.

Filed—July 9th, 1984.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—MINISTRY OF NATURAL RESOURCES—MNR-26/4

Having received a request from the Minister of Natural Resources that an undertaking, namely:

disposition by the Ministry of Natural Resources of certain or all rights to Crown resources for activities not otherwise subject to the Act,

be exempt from the application of the Act pursuant to section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following damage or interference with the persons and property indicated will occur:

- A. The Crown will be interfered with and damaged by the undue expense required to prepare environmental assessments for undertakings that may have insignificant adverse effects on the environment.

Having weighed such damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. Where the disposition of rights to Crown resources is associated with an activity which is subject to the Act, that disposition is not exempt by this order and will not be proceeded with under this order. In the event that a disposition of rights to Crown resources associated with activities which are not subject to the Act is initiated but, where, as a result of the notification requirements described in the conditions below, the associated activity is designated by regulation as being subject to the Act, that portion of the disposition which has not been completed will not be exempt under this order.

B. Activities which the Ministry of Natural Resources may undertake to initiate applications for the disposition of rights to Crown resources may, themselves, be undertakings which are subject to the *Environmental Assessment Act* and may not be proceeded with until approval or exemption under the Act has been received.

This exemption is subject to the following terms and conditions:

1. This order does not exempt a disposition activity to a disposition applicant whose proposed activity is subject to the Act, (or would be so subject except for another exemption), unless the disposition applicant has complied with provisions of the Act, (including any provisions of an approval or other exemption), which apply to the disposition applicant with respect to the proposed activity.
2. Where a disposition is for an activity which is not subject to the Act and which is a major commercial, industrial or recreational complex which may have a significant negative effect on the environment or another activity which the Ministry of Natural Resources determines may have such an effect, the following practices will be instituted by the Ministry of Natural Resources:
 - (a) The disposition applicant will be notified, upon application for disposition, that the proposed activity for which the disposition is being sought may ultimately be subject to the Act;
 - (b) The notification under clause (a) shall describe the manner in which such a development may become subject to the Act and the prohibitions attached to the disposition should the project become subject to the Act before the disposition is completed; and
 - (c) At the time of giving the notification under clause (a) the Ministry of Natural Resources shall advise the Director of the Environmental Assessment Branch and copy the appropriate Regional Director of the Ministry of the Environment in writing of the notice and provide the Director with the following additional information: the purpose, location and description of the project, expected significant environmental effects, proposed mitigation measures and the identity or description of any affected agencies and members of the public.

3.—(1) Where condition 4 does not apply, the Ministry of Natural Resources may only complete the disposition after the earlier of:

- (a) the Director of the Environmental Assessment Branch of the Ministry of the Environment having advised the Ministry of Natural Resources that it is not intended to seek a designation in connection with the proposed disposition; and
- (b) the period of time specified in subcondition (2) has elapsed from the giving of written notice to the Director of the Environmental Assessment Branch under condition 2 (c), and

where condition 4 applies, the disposition shall not be carried out except in accordance with the provisions of conditions 5 and 6, or an approval.

- (2) The period of time referred to in subcondition 3 (1) (b) shall be 30 days or such longer period as the Director of the Environmental Assessment Branch specifies in writing prior to the end of the 30 day period or the 30 day period as it may have been extended from time to time pursuant to this subcondition.
4. Where the Director of the Environmental Assessment Branch of the Ministry of the Environment within the time allowed by subcondition 3 (1) (b) advises the Ministry of Natural Resources that additional time is required to consider designating the proposed disposition, the Ministry of Natural Resources will provide any additional available information and give such further notices to the public and other individuals or agencies who might be affected by the disposition as is determined in discussions between the Ministry of Natural Resources and the Ministry of the Environment and the applicant will carry out any necessary further research required by the Ministry of the Environment. The notices given under this condition shall contain information on the purpose, location and description of the project, potential significant environmental effects, proposed mitigation measures if any and a request for comments within a specified time period (normally 30 days). Concerns will be discussed with any person who raises concerns before any disposition for the proposal is granted. When the Director gives a notice to the Ministry of Natural Resources under this condition he will send a copy to the applicant.
5. After being advised by the Ministry of Natural Resources of any additional information and the results of any further research, discussions or submissions which

may arise as a result of condition 4, the Director of the Environmental Assessment Branch of the Ministry of the Environment will determine if any adverse effects will be minor or will be adequately dealt with under other permits or approvals required in connection with the proposed disposition or use of the rights disposed of.

6. If the Ministry of the Environment makes a determination under condition 5 that the adverse effects will be minor or adequately dealt with under other permits or approvals, it will advise the Ministry of Natural Resources that it may then proceed with the disposition.
7. Where a disposition which otherwise would be exempt under this order is being carried out in connection with, or is part of, an undertaking for which an environmental assessment has been done and approval to proceed received, the disposition shall not be exempt under this order but shall be carried out in accordance with the approval to proceed; and where the reasons for a condition of approval indicate the approval should apply to particular dispositions, such dispositions shall not be exempt hereunder.
8. Where a disposition is associated with a hydro-carbon pipeline project which has been

approved by the National Energy Board or the Ontario Energy Board, the disposition shall not be subject to conditions 2 to 6.

9. In the event of a disagreement as to whether or not an activity for which a notice has been given under condition 2 is likely to have adverse environmental effects, the form of a notice, who is to receive a notice or whether or not an environmental assessment should be done with respect to such activity, the Minister of the Environment shall determine any such disagreement and whether or not the activity may proceed without an environmental assessment being done.
10. This Order expires on the 29th day of March, 1989.
11. This Order takes effect upon the expiry of Exemption Order MNR-26/3, filed as Ontario Regulation 221/84 provided that where a notice has been given under condition 2 of that Order the 30 day time period as extended pursuant to subcondition 3 (1) (b) of this Order shall be shortened to 15 days as so extended. GAS PIPELINE SYSTEMS

1. In this Regulation,
- (a) “operating company” means an individual, partnership, corporation, public agency or other entity operating a gas pipeline system;
- (b) “professional engineer” means a person who is a member or licensee of the Association of Professional Engineers of the Province of Ontario. O. Reg. 450/84, s. 1.

2.—(1) Subject to subsection (3), the Standard issued by the Canadian Standards Association entitled CSA Standard Z184-M1983 Gas Pipeline Systems and the standards, specifications, codes and publications set out therein as reference publications insofar as they apply to the said Standard are adopted as part of this Regulation with the following changes:

1. Clause 1.1.3 is amended by adding thereto the following clause:
- (l) Digester gas or gas from landfill sites.
2. Clause 2 is amended by revoking the definition of “gas” and substituting the following therefor:
- “gas” means any gas or mixture of gases suitable for domestic or industrial fuel that is conveyed to the user through a pipeline.
3. Table 7.1 is revoked and the following substituted therefor:

Table 7.1*

Test Requirements for Pipelines to Operate at Hoop Stresses of 30 Per Cent or More of the Specified Minimum Yield Strength of Pipe				
1	2	3	4	5
Class Location	Permissible Test Medium	Prescribed Test Pressure Minimum	Maximum	Maximum Allowable Operating Pressure (Lesser of)
1	Approved Liquid	1.25×m.o.p.	Clause 7.3.3	t.p.÷1.25 or d.p.
	Air or Gas	1.25×m.o.p.	1.25 × d.p.	t.p.÷1.25 or d.p.
2	Approved Liquid	1.25×m.o.p.	Clause 7.3.3	t.p.÷1.25 or d.p.
	Air or Gas	1.25×m.o.p.	1.25 × d.p.	t.p.÷1.25 or d.p.
3	Approved Liquid	1.40×m.o.p.	Clause 7.3.3	t.p.÷1.40 or d.p.
4	Approved Liquid	1.40×m.o.p.	Clause 7.3.3	t.p.÷1.40 or d.p.

*This Table brings out the relationship between test pressures and maximum allowable operating pressure subsequent to the test. If an operating Company decides that the maximum operating pressure will be less than the design pressure, a corresponding reduction in prescribed test pressure may be made as indicated in Column 3. However, if the reduced test pressure is used, the maximum operating pressure cannot later be raised to the design pressure without retesting the pipeline to the test pressure prescribed in Column 4. (See Clauses 2.1 and 4.9.1)

Treasurers' Sales of Lands for Taxes

Each year, municipal and county treasurers compile a list of properties against which taxes are outstanding for at least two successive years, which is a period sufficient to permit sale of the owner's assets to reimburse the municipality. These lists are submitted by the municipal representative to the Ministry of Government Services for publication in THE ONTARIO GAZETTE.

The Gazette is published every Saturday. Tax sale lands are included only in the issue of the first Saturday of each month. Each property is described so that it may be properly identified. Also shown are the amount of tax arrears and costs, and the date, time and place where the sale will be held, which is usually in a public building in the locality. Sales are held three months or later following the date of publication in the Gazette and are subject to a reserve bid equal to the amount of tax arrears and costs.

The previous owner may by law redeem the property any time within one year and one day after the date of tax sale by paying to the municipality all arrears plus costs levied. Where redemption occurs, the municipality reimburses the purchaser of tax sale lands for the amount paid at the sale plus an additional amount to be determined in each case.

If the land is not redeemed in the manner described above, the purchaser at sale, receives from the municipality a tax deed or certificate which should be registered in the appropriate Land Titles or Registry Office. A purchaser should ascertain from either of these offices, information relating to any of the charges or liens against the land and consider the advisability of employing the services of a solicitor to determine the extent, if any, of his liability.

The foregoing applies to tax sale lands which were privately owned. In the event the land is the property of the Crown as represented by the Province of Ontario, only the improvements on the property, such as buildings, may be sold. In this case, an intending purchaser should for his own protection ascertain from the local office of the Ministry of Natural Resources whether or not the land or any part

can be purchased or leased from the Ministry. If it cannot, then the purchaser of the improvements would be required to remove them from the land.

In some cases, the owner, prior to sale, may pay the tax arrears and cost. Where this occurs, the land is removed from the tax sale lists.

INTERPRETATION

- (b) “processor” means a processor of cucumbers who is subject to the provisions of the *Farm Products Marketing Act* and the regulations made thereunder and any annual agreement for marketing of cucumbers for processing;

- (i) for processing under a contract between a grower and a processor, and
- (ii) on acreage specified in such contract;
- (d) “ton” means 2,000 pounds.

DESIGNATION OF PERILS

- 4.—(1) Subject to subsection (2), the following are designated as perils for the purposes of this plan:

3. Flood.
4. Frost.
5. Hail.
6. Insect infestation.

7. Plant disease.
8. Wild life.
9. Wind.

(2) The contract of insurance for cucumbers does not insure against a loss in the production of cucumbers in a crop year resulting from insect infestation or plant disease unless the insured person establishes that he followed a recommended control program during the crop year.

DESIGNATION OF CROP YEAR

5. The crop year for cucumbers is the period from the 1st day of March in any year to the 15th day of October next following.

CONTRACT OF INSURANCE

6. For the purposes of this plan, the entire contract of insurance for cucumbers shall be deemed to be comprised of,

- (a) the contract of insurance in the form prescribed by Regulation 231 of Revised Regulations of Ontario, 1980;

 - (c) be filed with the Commission not later than the 1st day of May in the crop year, or such other date as may be determined by the Commission.

DURATION OF CONTRACT

8.—(1) A contract of insurance shall be in force for the crop year in respect of which it is made, and shall continue in force for each crop year thereafter until it is cancelled by the insured person or the Commission in the manner prescribed by subsection (2) or is terminated in accordance with the regulations.

(2) A contract of insurance may be cancelled by the insured person or the Commission by notice in writing to the other party on or before the 1st day of May in the crop year during which the cancellation is to be effective.

COVERAGE

9.—(1) Subject to subsections (2), (3) and (4), the coverage provided under a contract of insurance shall be 70 per cent of the average farm yield in tons of the total producing acres of cucumbers grown by the insured person in accordance with the regulations.

1. Following the first no claim year to 75 per cent.
2. Following the second no claim year to 80 per cent.

(3) The coverage provided under subsections (1) and (2) shall be decreased for claim years in steps of 5 per cent from the insured level in reverse progression to that prescribed by subsection (2) to a minimum of 60 per cent.

(4) Where, in any year, a claim is paid in an amount less than one-half of the total premium for that year, the coverage for the following year shall remain unchanged.

(5) The number of tons determined under subsections (1), (2) and (3) constitutes the total guaranteed production under a contract of insurance.

(6) Where in the opinion of the Commission the insured person cannot provide adequate production records, the average farm yield shall be determined by the Commission on such other basis as it may approve.

10. The maximum amount for which the Commission is liable for a loss in production under a contract of insurance shall be the amount obtained by multiplying the total guaranteed production determined under section 9 by the established price per ton determined under section 11.

11. For the purposes of this plan the established price per ton for cucumbers in a crop year shall be 50 per cent of the minimum price per ton for grade three cucumbers negotiated in the grower-processor marketing agreement.

PREMIUMS

(2) Notwithstanding subsection (1), the minimum premium payable by an insured person in each crop year is \$150.

(3) The premium prescribed by subsection (1) includes payments in respect of premiums made by the Government of Canada under the *Crop Insurance Act* (Canada).

13.—(1) Where a contract of insurance is in force, the premium shall be paid in respect of each crop year in which the insured person produces cucumbers.

(2) Where a premium is payable in respect of a crop year, the insured person shall pay the premium, less the premium deposit prescribed by subsection (3), to the Commission at the time he files the final acreage report prescribed by section 14.

(3) Where a renewal premium is payable in respect of a crop year, the insured person shall, not later than the 1st day of May in the crop year, pay a premium deposit in accordance with clause 7 (b).

FINAL ACREAGE REPORT

14.—(1) Every insured person shall file with the Commission in each crop year a final acreage report in a form provided by the Commission within ten days after the seeding of acreage to cucumbers is complete.

(2) A final acreage report filed with the Commission shall not be amended without the consent in writing of the Commission.

15.—(1) The Commission may revise the final acreage report in any or all respects and adjust the premium accordingly and, in such case, shall notify the insured person in writing forthwith respecting such revision and adjustment.

(2) The insured person shall be deemed to have agreed with the revision of the final acreage report and adjustment of premium made by the Commission under subsection (1) unless, within ten days from the mailing or delivery of the notification by the Commission, he notifies the Commission in writing that he rejects such revision and adjustment.

(3) Where the Commission receives notice from an insured person under subsection (2), it shall notify the insured person in writing that the contract of insurance does not apply for the crop year in respect of which the final acreage report was filed.

(4) A final acreage report revised under this section shall, failing notice under subsection (2), constitute the final acreage report for the crop year.

16.—(1) Where an insured person in any crop year fails to file a final acreage report in the form and manner prescribed by this Regulation, the Commission may,

(a) prepare the final acreage report; or

(b) declare the insured acreage to be nil.

(2) Where the Commission prepares a final acreage report under subsection (1), the Commission shall mail or deliver a copy of the report to the insured person.

(3) Every insured person shall pay the premium for the crop year in respect of which a final acreage report

is prepared by the Commission within ten days from the mailing or delivery to him of a copy of the report.

Form 1

Crop Insurance Act (Ontario)

CUCUMBER ENDORSEMENT

WHEREAS the insured person has applied for crop insurance for cucumbers under The Ontario Crop Insurance Plan for Cucumbers, hereinafter referred to as "the plan", and has paid the deposit premium prescribed thereunder;

NOW THEREFORE, subject to the *Crop Insurance Act (Ontario)* and the regulations made thereunder, the contract of insurance between The Crop Insurance Commission of Ontario and the insured person is hereby extended to cover cucumbers.

HARVESTING OF PLANTED ACREAGE

1. All acreage planted to cucumbers in a crop year shall be harvested unless the Commission, upon application therefor in writing, consents in writing to,

(a) the use of the planted acreage or any part thereof for another purpose; or

(b) the abandonment or destruction of the insured crop or any part thereof.

EVALUATION OF LOSS

2.—(1) Where loss or damage occurs at any time after the completion of planting, the Commission, upon application therefor in writing by the insured person, may consent in writing to,

(a) replanting of the damaged acreage; or

(b) the use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage and, in such case, the Commission shall determine the number of damaged acres and the potential production thereof.

(2) Where the damaged acreage is replanted to the insured crop in accordance with clause (1) (a), a benefit of \$35 for each acre so replanted shall be paid and the contract of insurance shall continue to apply to such replanted acreage.

(3) Where the damaged acreage is used for any other purpose or the insured crop is abandoned or destroyed in accordance with clause (1) (b), a benefit of \$35 for each acre so abandoned or destroyed shall be paid and the contract of insurance shall cease to apply to such acreage.

(4) Where the damaged acreage is not used for any other purpose or the crop is not abandoned or destroyed after the Commission has consented thereto, the amount of loss calculated under subparagraph (3) shall not be taken into account in the final adjustment of loss.

(5) Where harvesting has been completed, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated by multiplying the difference between the guaranteed production and the actual production by the established price per ton.

FINAL ADJUSTMENT OF LOSS FOR TOTAL PLANTED ACREAGE

3.—(1) The Commission may cause the actual production of the insured crop to be appraised by any method that it considers proper.

(2) The indemnity payable with respect to the total insured acreage in the final adjustment of loss shall be the sum of all loss calculations made under paragraph 2 applicable to such acreage, but where,

(a) the actual production of any harvested acreage; or

(b) the potential production of any unharvested acreage,

exceeds the guaranteed production of such acreage, the indemnity otherwise payable in respect of loss calculations made under paragraph 2 shall be reduced by the amount obtained by multiplying such excess by the established price.

INCORRECT ACREAGE IN FINAL ACREAGE REPORT

4.—(1) Where the actual planted acreage of cucumbers in a crop year is less than the planted acreage declared on the final acreage report, the total guaranteed production and the amount of insurance shall be reduced proportionately.

(2) Where the actual planted acreage of cucumbers in a crop year exceeds the planted acreage declared on the final acreage report, production from the total planted acreage shall be counted and there shall be no increase in the total guaranteed production or the maximum amount of indemnity payable.

IN WITNESS WHEREOF The Crop Insurance Commission of Ontario has caused this endorsement to be signed by its general manager but the same shall not be binding upon the Commission until countersigned by a duly authorized representative thereof.
